

FDOT District 4 Awards CPC I-95 CEI Project in Treasure Coast

SR I-95 from North of County Road 708 to South of High Meadow Road

This project is located along the heavily traveled I-95 corridor - will start just south of Kanner Highway and end just north of High Meadow Road. The scope of work will entail installing new highway lighting along both sides of the I-95 corridor, including the bridge over the St. Lucie Canal. Bridge work will require minor demolition (deck and railing) to support the new lighting pedestals. The proposed lighting system will consist of 201 new aluminum poles (standard 50') with 400-watt, high pressure, sodium luminaires.
